PROJECTS:

1.**Online Ticket Booking System:**
 Domain: Software Development
 Programming Languages: C
 Description: Developed a console-based application that allows customers to book tickets. The program displays a list of movies along with their showtimes,
 enabling users to select and book tickets easily.

2. Income Tax Department Webpage:
Domain: Web Development
Technologies Used: HTML, CSS, JavaScript
Description: Designed and built an attractive and functional front-end for the Income Tax Department's website. The project included creating webpages with a navigation bar and implementing user interaction features using JavaScript. Additionally, developed JSP pages for dynamic content handling.

3. Spotify Clone:
Domain: Web Development
Technologies Used: HTML, CSS, JavaScript
Description: Created a web-based clone of Spotify, featuring a visually appealing interface. The project involved building a responsive design, integrating basic music player functionalities, and ensuring a user-friendly experience.

ACHIEVEMENTS:

Participated in the Children science congress quiz in Intermediate school and got 2nd position.
